

## We Need Poo

### Research matters – join our WE NEED POO project!

We're investigating the **frequency at which dogs may have a positive faecal worm count and what lifestyle factors may contribute to this.**

This research helps us better understand parasite risks and improve worming recommendations for pets everywhere.

#### Who Can Take Part?

We're looking for dogs who:

- Are healthy adults (1 year+)
- Receive pharmaceutical worming treatment every 3 months or less frequently

#### What You'll Do

- Provide a 3-day pooled faecal sample from one dog in your household
- Complete a short questionnaire about your dog's lifestyle

***You don't need to be an existing client to participate – you'll receive a free faecal analysis – all participants will be entered into a raffle draw for a fantastic hamper!***

#### How It Works:

- Pick up a poo pack at Reception (includes sample pot + questionnaire)
- Return the completed pack to Reception when ready
- Done! We'll send it to the lab for analysis

If you are interested in participating you can email [enquiries@ashtreevets.co.uk](mailto:enquiries@ashtreevets.co.uk), call **01858 462 839**, or just ask at Reception for a **sample pack**.
